

Class One - Spring Homework

We believe that the basic skills are the ones we should be practising regularly at home so that they become a habit. That way, they are seen as an interest or game, rather than a task or chore. This is very valuable 'work' for home:

Daily Reading	Device Time	Talk Time
Remember that the more you read a book, the more fluent you will become. Read your book little and often and keep practising those sounds and tricky words.	Many of us use devices in our 'downtime' – we encourage you to encourage educational apps to practice reading and maths skills	Remembering is a crucial skill in order to build on what we know. Talking about what your child has done at school cements those ideas.

Log-on to appropriate apps for educational 'device time' such as:

Termly Project Tasks

We believe that learning 'sticks' best when it connects, is rehearsed and is explored based on personal interest and skill set. An element of choice can motivate us too. So, in addition to the 'habits' above that we expect you to do every week, the Project Task is specific to the class theme and brought in at the end of term. It gives time to explore possibilities and perhaps do one big thing or a couple of little things that support our learning in school.

Creativity

(3 points)

Make a model of a minibeast (snail, ladybird, dragonfly etc).

Make a mini garden in a plant pot.

This term's theme is

"In the Garden"

HAND-IN:
Friday 22nd March
GALLERY:
Monday 25th March

Mathematical Skills

(2 points)

Shopping skills. Can you make a pretend shop and pay with pennies?
Can you name what all the coins are?

Research Skills

(1 points)

Can you find out about deadly minibeasts from Australia?
Where do all your fruit and vegetables come from? How can you present this to others?

Complete projects based on these ideas or **you can add your own ideas too** 😊.
The 'points' give you an idea of how much is expected across the whole term.

Locality

(2 points)

Go for a bug hunt in your garden.
Explore a fallen log in a wood, what lives in there?
What bigger animals live in and around your house?
