

# Toy Story Helpers

## Overview:

This term we have been finding out all about toys. The first half of the term, we helped a teddy find out about bears and we made our own bear puppets. We put on a teddy bear's picnic where we served our guests with food we had made. The second half of the term we were finding out about vehicles and how we can make our own. We loved making our own role play boat and hot air balloon and finding out how cargo ships work. Of course we had a healthy week where we ditched the wheels and managed to run a mile...Phew!!

## Facilitator Reflection:

The children are really enjoying shaping their own curriculum. We posed our own questions about toys that we managed to research and answer throughout the term. They particularly enjoyed combining problems solving and construction skills to decide what construction and boxes could become, altering and modifying as they went along. Its amazing to see where enquiring minds will take us.

## Pupil Reflection:

I enjoyed making a vehicle with moving wheels on it

I really enjoyed weaving the basket to make a hot air balloon

I loved making boats and thinking about what a big cardboard box could be
