

# ROLL BACK THE STONE

A project to entertain you by Yr3/Yr4

## Overview:

This project was aimed at Lower Key Stage 2 to support the Literacy, Drama, Music and Religious Education curriculums in particular. The main emphasis was retelling the Easter story through narration, drama and singing. The children, who called themselves 'The Eagle Players', performed to a range of audiences both young and old - the highlight being the end of term performance in the Village Church to their parents, family and friends.

## Facilitator Reflection:

This was an ideal project with its compelling and uplifting cantata, presenting the Easter story in seven songs and short linking narratives. 'Roll Back The Stone' conveys great dramatic intensity through its vivid lyrics and effective variety of different musical styles. It is well written, child friendly and was perfect for our Easter service.

## Pupil Reflection:

We loved learning the upbeat songs which told the Easter story.

I enjoyed being a narrator.

I liked the modern way that we shared this very important Christian festival.

I loved performing in the church.
