

## Statement of School Ethos

Our school values have been decided by our pupils and stakeholders (Sep 2023) ...

**Perseverance**, **Respect**, **Integrity**, **Diligence** and **Empathy**

... and enable us to achieve success.

We aim to promote pupil progress through attitudes, knowledge, skills and understanding which are essential principles for life-long learners, alongside developing intellectually, physically, socially, morally and ethically successful learners, able to contribute to society.

We will promote competency in:

- Thinking skills
- Problem solving skills
- Innovation
- Co-operation, and
- Communication

The hallmarks of our curriculum are principally driven by being **purposeful**, and where possible, guided by **real** situations and scenarios. Our purposeful focus embraces **creativity**, to excite the **imagination** and inspire **curiosity**. We provide **challenge** and encourage **confidence**, to raise aspirations and widen horizons.

We all have the right:

- to teach
- to learn
- to be safe
- to receive respect

... and it becomes each of our responsibility to uphold these rights.
