

Eagle CP School Newsletter

Term 4 Week 5
Friday 25th March 2022

Dear School Families,

Covid Cases Update

We are now resigned to our 'Outbreak' status for the rest of this term 😞. Whilst the cases are few, we keep logging one here and one there, which continues our Outbreak window unfortunately. Of course, we all want to be well for the Easter break so we will continue our risk mitigations next week ...

...Project Gallery

I know many have been 'sitting on the fence' with us in terms of our arrangements for the Project Gallery. Our hope to have a busy school, hustle and bustling with children and parents talking about their projects and sharing our work is not going to be realised this term. However, as always, we still want to value and celebrate the children's hard work and your support at home. As some fantastic pieces have been brought in today and we have been told that others are 'on the way', we intend to 'open' for a low-key display for your enjoyment and viewing pleasure 😊.

If you would like to come and see the home project learning, please come to the main school entrance from **2.45pm on Friday 31st March**. We will operate a one-way system to the Hall where the classes will have displayed their work in a route that will then lead you out of the rear car park doorway so that you can loop round to the playground to wait for pick-up. For this Gallery, children will stay in their classrooms, but we will send them out to you if you are waiting #livingwithcovid.

Access to a Dentist – information send to school this week 😊

Did you know that unlike GPs, you do not have to be on a dentist's list? Healthy teeth are vitally important so we urge you to attend regular dental check-ups, but we know how difficult it is to find NHS dentists as some only take private patients or have very few spaces for NHS work. For many dental practices, NHS appointments might be booked for some weeks in the future or surgeries may not be accepting new patients. However, practices should prioritise patients with an urgent need but being seen and treated for an urgent need does not guarantee that they will be able to see you on an ongoing basis. Patients should not be pressured into private care where they wish to have treatment on the NHS and it should not be the case that you are unable to get an urgent NHS appointment if a practice has capacity to offer routine private check-ups. Find a dentist - NHS (www.nhs.uk) provides a list of local dentists, although not all may currently be taking on new patients. If you have an urgent dental need then you should contact NHS111 who will provide advice and information on services to contact.

'Our Highlights' of the week ...

Little Eagles – Have been investigating what baby frogs look like, and drawing their very own frog pictures.
Class 1 – Jaylen has loved playing with the blocks.
Class 2 – Louis tells us, he has enjoyed learning about finding ½ of 2D shapes and quantities.
Class 3 – Faith had a great time sorting through her project work and tells us – I've learned a lot.
Class 4 – Thomas enjoyed the independent write bases on a picture of a mysterious island

Best wishes, Hayley Adams

Head Teacher: Mrs H Adams BEd (Hons) QTS, NPQH
