

Friday 2nd July 2021

Dear Parents/Carers.

Firstly can I thank you all for your continued support for the school and your children as we continue through this summer term. Whilst the sun has not always been shining it has been so wonderful to see the children coming in to school happy and smiling being ready to learn and play.

Online Safety

A little while ago I wrote to you talking about some of the benefits and dangers of online gaming. Dan Hawbrook (Lincolnshire County Council) is an expert in working with children who like to game and helps them to keep safe. This YouTube video which Dan has created is suitable for KS2 children and it is something which you may want share with your child and use as a discussion start for them to open up about their relationship with gaming and how gaming affects their relationships. Within this 5 min talk Dan discusses his top gaming tips for keeping children safe [Stay Safe Talks - Gaming - YouTube](#)

Little Eagles Sports Day

Little Eagles were so excited to take part in their first mini Sports Day this week. There was lots of running, hurdling and plenty of effort and we were so proud of their confidence. We were also amazed to see how many of the children gave all events a go no matter how young they might have been. Thank you to Coach Ash from Premier Education for helping to organise this and the children had a thoroughly good time.

Sports Day

A reminder, that for the rest of the school, our Tokyo Olympic Sports Day will take place on Thursday 8th July – **ALL** children will need to attend in PE Kit on Wednesday 7th July & Thursday 8th July. The Tokyo Olympic event line up has been decided, we are looking forward to the competitors arriving on the day.

Highlights of the Week

Little Eagles – Sports day what else could it be! We enjoyed ourselves so much.

Class 1 – Animals! We are all animals! Well we have been learning about endangered ones at least.

Class 2 - We have been builders. We are making 3D model houses and are enjoying this so far!

Class 3 – We have been amazing Scientists this week; creating circuits and switches – investigating materials which do and do not conduct electricity.

Class 4 – Our highlight was filming our virtual open afternoon about Ancient Egypt

ALL – Totally Awesome Donut Day

Another busy week!

Yours Faithfully

Barry Thornton (Interim Headteacher)
